SOFTWARE INSTRUCTIONS FOR THE
STAIRMASTER® STRATUS SYSTEMS CONSOLE

Install the replacement Stratus Systems console by performing the following steps:

A. Remove the console
1. Disconnect the console knob screws from the back of the console.
2. Gently pull up on the console and locate the main cable attachment behind the console.
3. Disconnect the main cable and the heart rate cable from the console.

B. Install the new console by reversing steps 1 – 3

C. Configure the console

   Rehabilitation clinics or other medical facilities may want to use the Clinical Mode. The Clinical Mode allows the user to pedal at speeds less than 50 RPMs without the "Pedal Faster" prompt being displayed. The battery will not be charged at pedal speeds lower than 50 RPMs. <u>To ensure trouble-free operation you must connect the battery charger at all times while the Clinical Mode is activated!</u>

1. Pedal the cycle until the console lights up.
2. Turn on the clinical mode by pressing [+ ARROW], [9], [7], [6], [6], [ENTER], [0], [ENTER], while the console is in the **ATTRACT** mode (i.e., the EKG symbol scrolling across the screen).
3. Turn off the clinical mode by pressing [+ ARROW], [9], [7], [6], [6], [ENTER], [1], [ENTER] while in the **ATTRACT** mode.

D. Console Codes

   The console codes and the corresponding functions are listed below. You must press [+ARROW] before pressing the code's number keys, and then press [ENTER]. Some codes, like the one to change the language of the console prompts, have options that require you to press a number and then [ENTER] to select that option.

Code	Function	Code	Function
105	Clears the custom programmed scrolling message	7703	Displays machine usage information
