

iPod Cable Replacement

Made For iPod: BTS

The following procedure will show you how to replace the iPod Cable on Made For iPod units: BTS (Bikes, TBT and Steppers).

Step 1

The iPod cable is located at the bottom of the display (Fig. 1)

Carefully disconnect the cable from the CCB (Center Control Board).

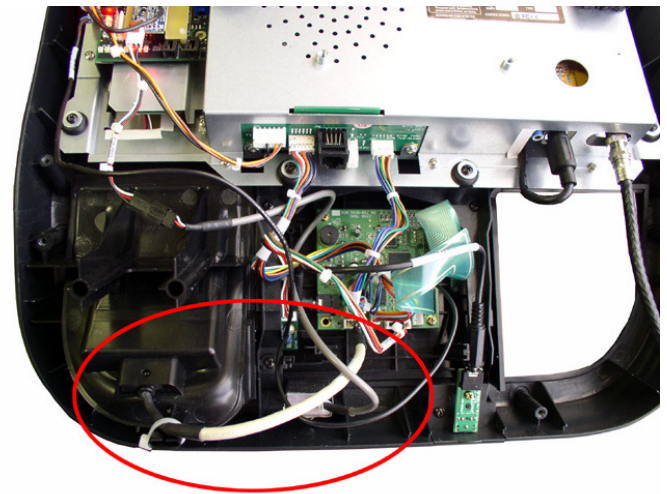

Fig. 1

Step 2

Carefully remove the cable by pushing it from the inner side of the display to the outside.

Step 3

Insert the new cable from the outer side of the display to the inner side.

Step 4

Secure the cable to the plastic drain using a zip tie (Fig. 2).

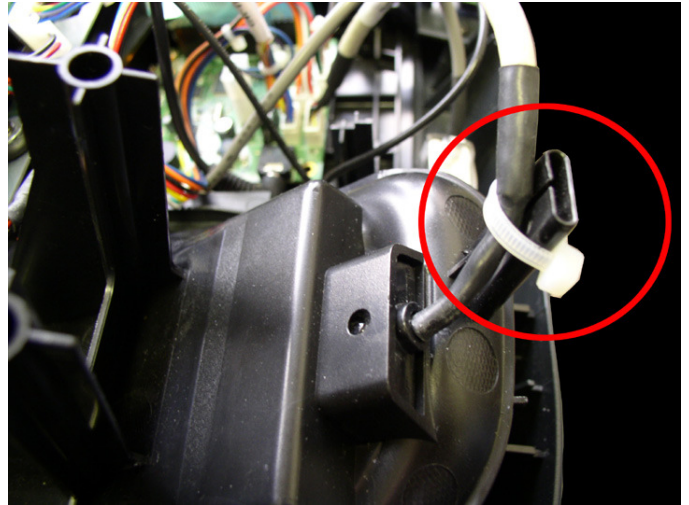

Fig. 2

Step 5

Verify the unit for proper function.
