

Console Change

Turbo Trainer®

The console on the Turbo Trainer® has changed. This change started with serial number BTNN1506-L01087

Changes are:

1. New console (Fig. 2) is physically smaller than the original screen (Fig. 1).
2. The new console has 2 buttons as opposed to the 3 button original screen
3. Functionality Changes
 - a. The new console can display watts,
 - b. The console can be paused by the user when the **PLAY/PAUSE** button is pressed.
 - c. To toggle between the two different lower displays, the user presses the Toggle button. Example: **WATTS, HEART RATE** and **RPM OR METs, MI KM** and **KCAL**.
