

Life Fitness Models X9i, 8500, 9100, and 9500HR Cross-Trainers

How To... Replace The Polar Receiver & Replace Monocolumn Cover

Tools required: Phillips screwdriver

1. **MODELS 8500 / 9100:** Remove four(4) mounting bolts from the two halves of the MONOCOLUMN COVER and separate.
2. **MODEL 9500:** Remove four(4) mounting bolts from each USER ARM REAR COVER(2). Then remove four(4) mounting bolts from the MONOCOLUMN COVERS and separate the two halves.
3. Locate the POLAR RECEIVER in the monocolumn and disconnect it from its jack.

Install a new POLAR RECEIVER in reverse order.

Note: Telemetry is optional on the domestic CT8500.
