SYSTEM TEST MENU 1 – LIFEPULSE TEST

The LifePulse™ system can be manually tested.

In the Sensor Status window the system will show when the user has placed their hands on the LifePulse™ sensors. When the left sensor detects hands on condition, a 'Left On' will be placed in the Sensor Status window. When the right sensor detects hands on condition, a 'Right On' will be placed in the Sensor Status window.

Acquisition Time will start counting from the time when a both left and right hands on condition occurs to when the LifePulse™ system can give the user their heart rate. This timer will stop when the heart rate is given.

The Gain value of the heart rate signal is shown. When 99 is displayed the software is in a search mode.

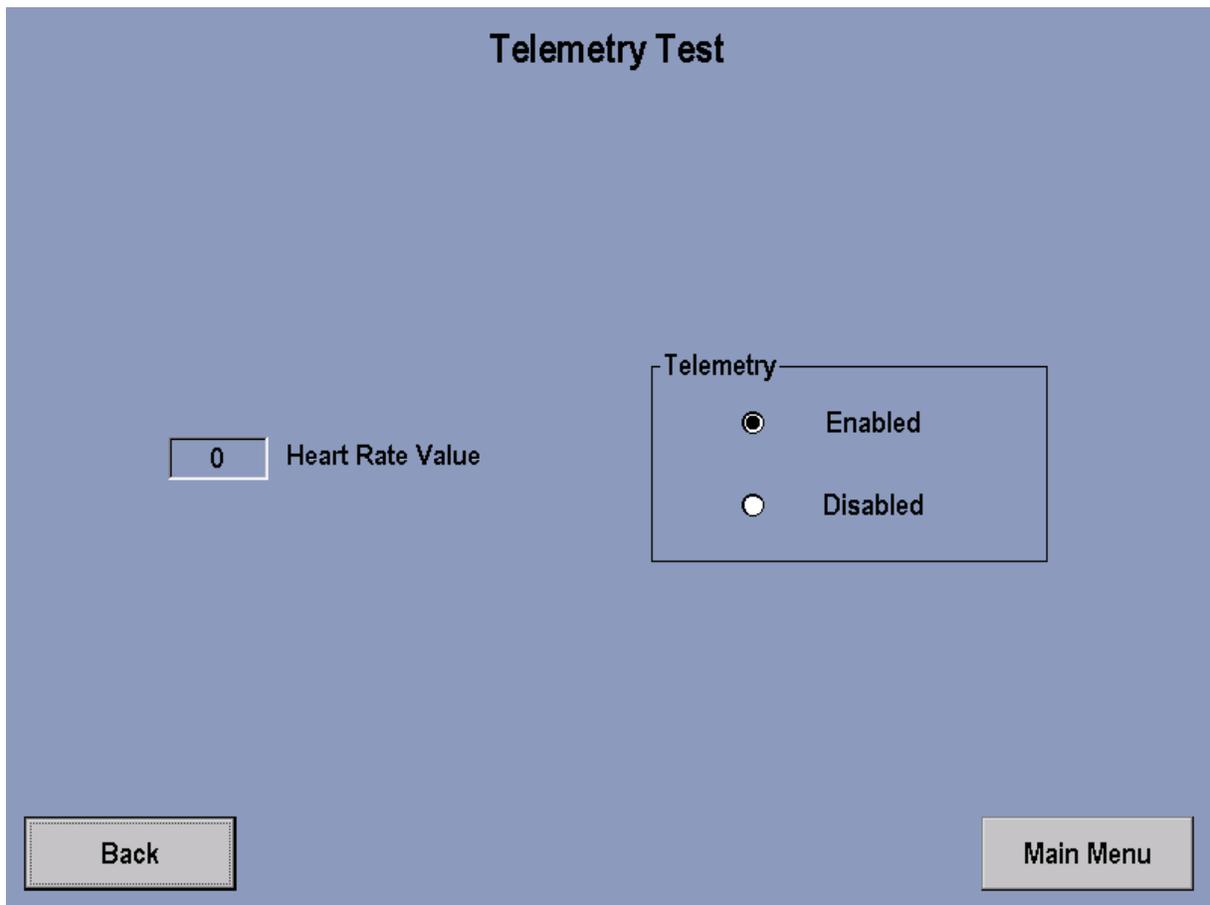

The Confidence level of the heart rate value is displayed. The value ranges from 0 to 9. A value of 9 is considered to be high confidence. A value of 0 is considered to be low confidence.

The speed system and incline systems can be activated in this test.

To return to the previous page press the Back key. Press the Main Menu key to return back to the System Options – Main Menu Screen.

CONFIGURATION - MANAGER

Manager's Configuration 1, 2, & 3

There are three Manager screens. Two Manager's Configuration 1 screens and a Manager's Configuration 2 screen, which all can be accessed for proper settings.

The first Manager's Configuration 1 screen displays is intended to display current settings such as: English or Metric, Maximum and Minimum Speed, Workout Duration Configuration, and Stand By Configuration.

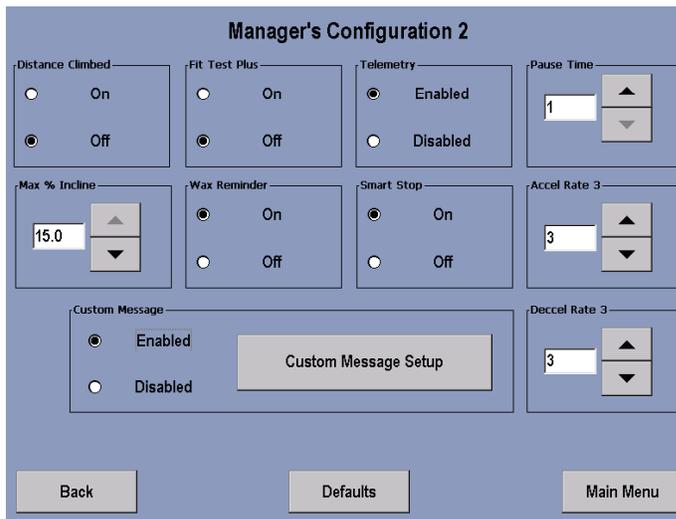

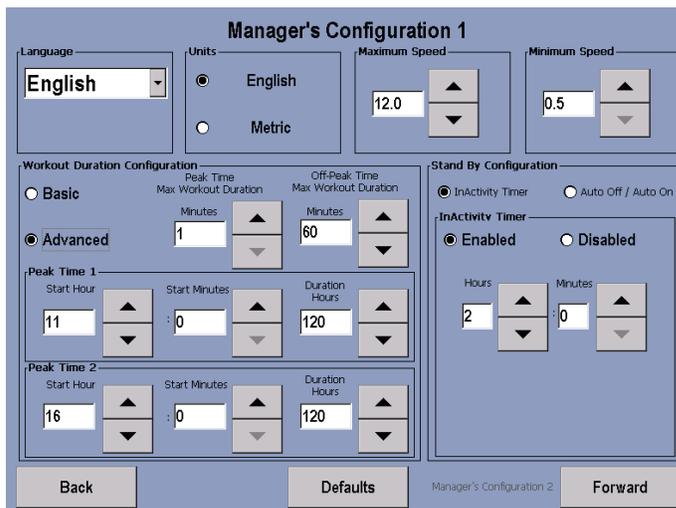

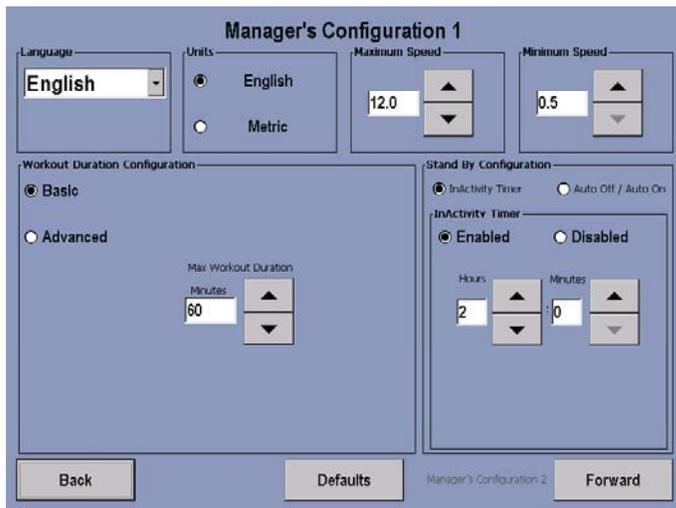

The second Manager's Configuration 2 screen allows the manager to actually set the defaults for language, units (English or Metric), telemetry, pause time, maximum workout duration, wax reminder, smart stop, accel rate, maximum speed, minimum speed, and decel rate.

To make settings, simply select appropriate buttons and use the arrow keys to modify variable default values.

Select RESET to return all values to there original factory settings.

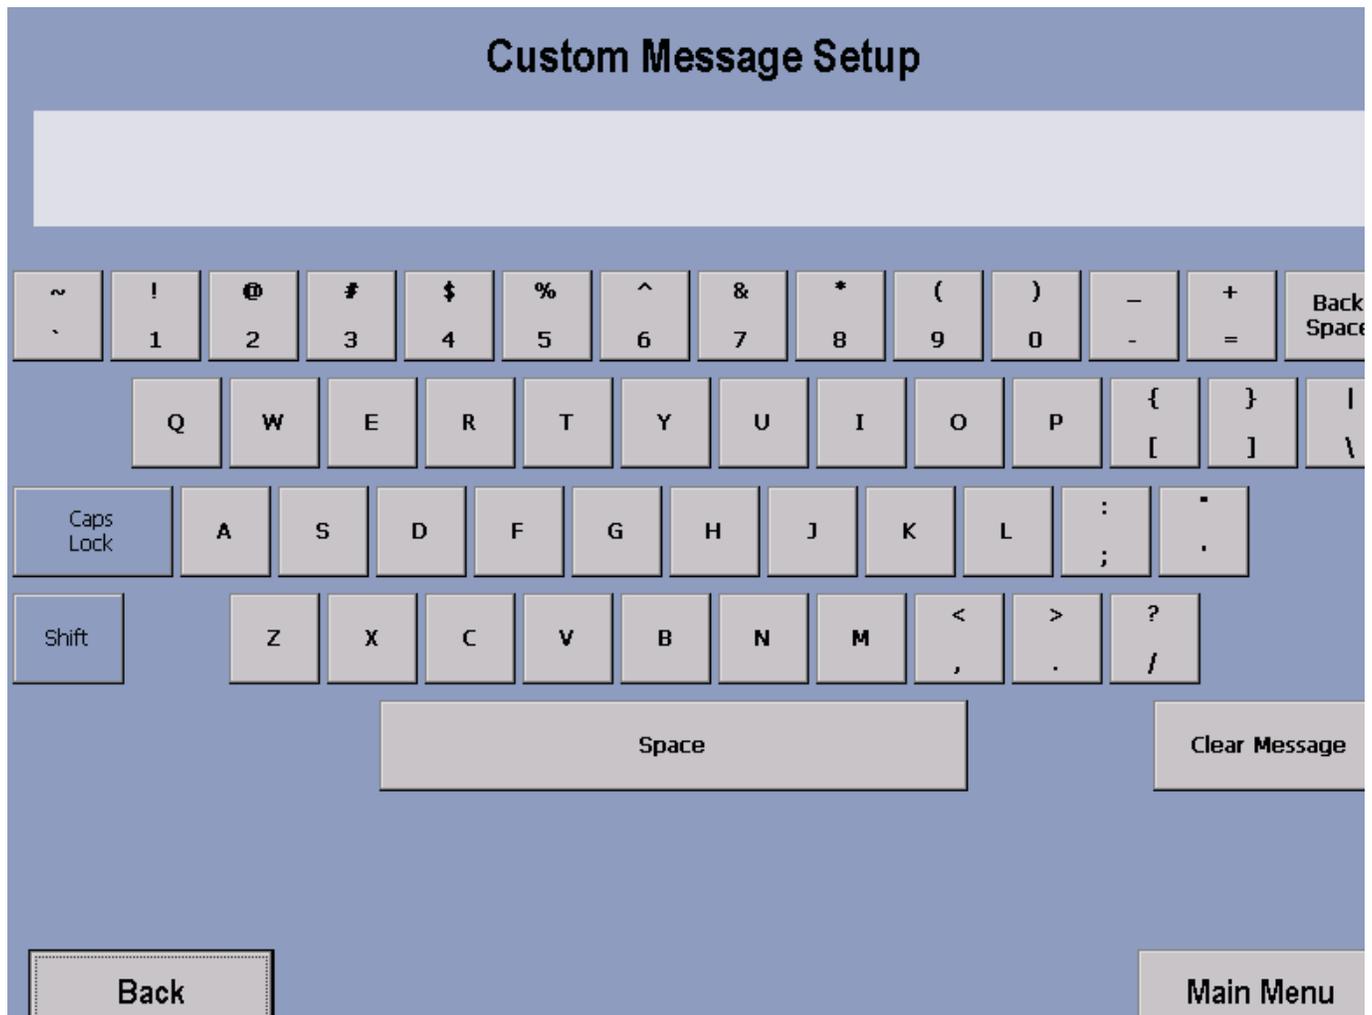

Manager's Configuration 2 allows the manager to activate or deactivate an operating system for maintenance purposes.

To return to the previous page press the Back key. Press the Main Menu key to return back to the System Options – Main Menu Screen.

Life Fitness Model 97Ti, 97Te, 95Ti, 95Te and 93T Treadmills
DISPLAY CONSOLE 97Te and 95Te LCD

CONFIGURATION - CUSTOM MESSAGE SETUP

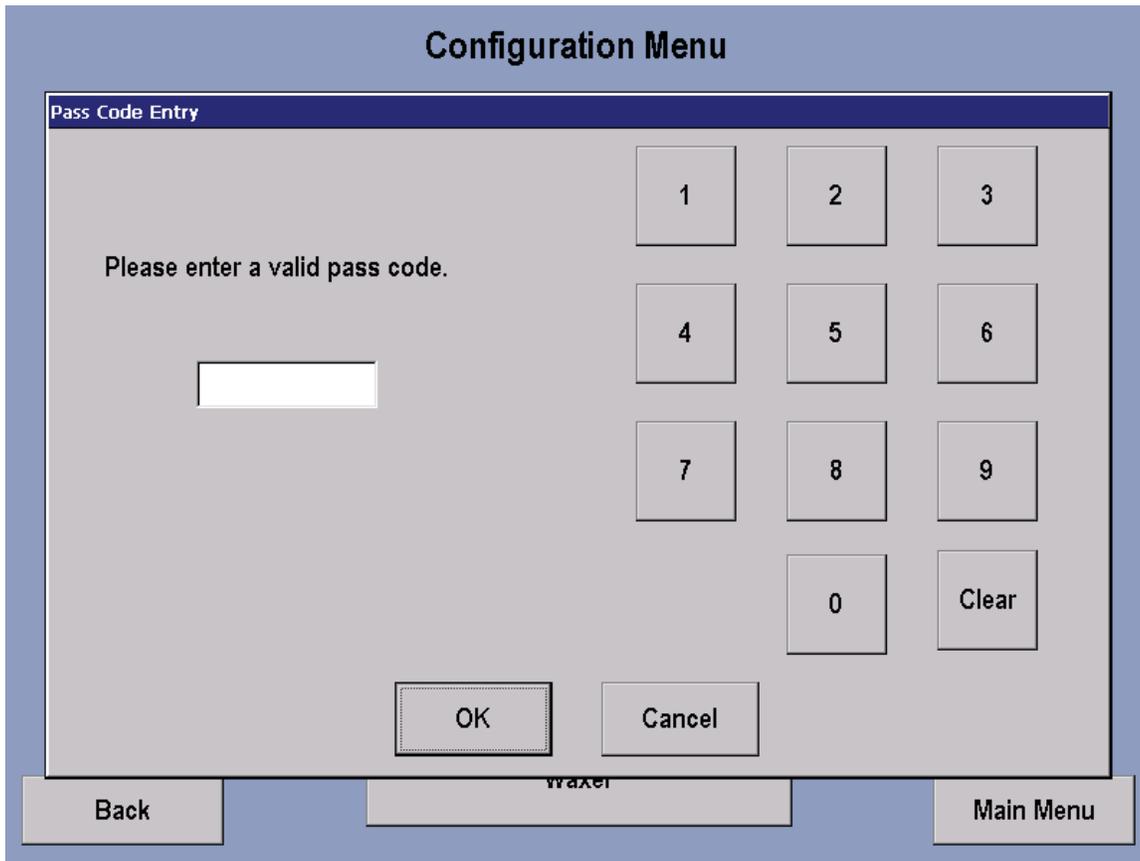

This configuration allows for a custom message to be displayed across the Welcome Screen. Creating/changing a Custom Message—after entering the Manager’s Configuration, check to make sure that Custom Message is enabled, and then select Custom Message Setup. Upon entering the setup screen, a message can be entered using the on-screen keyboard. Use the Shift button to input special characters and capital letters. The message will scroll across the top of the screen as the message is being inputted, giving real time feedback. Accepting a Custom Message—To accept the Custom Message, simply select the Main Menu button.

Erasing a Custom Message—to erase a Custom Message, enter the Custom Message Setup screen. Then select Clear Message and then Main Menu.

To return to the previous page press the Back key. Press the Main Menu key to return back to the System Options – Main Menu Screen.
