DIAGNOSTICS: SYSTEM TEST – REAL TIME CLOCK MODE

Section II

This test allows the user to see the current time set on the frame tag real time clock. If the communication is bad or the frame tag is unplugged the following messages will appear. Refer to the troubleshooting section for corrective action.

FRAME CLOCK COMM BAD
FRAME TAG UNPLUGGED

If there are no errors, a message concerning whether the clock is set the local time or default "Greenwich Mean Time". Either message may appear:
"CLOCK SET TO LOCAL" or
"CLOCK SET TO GMT"

The message will be followed by the current real time clock information.
Press the 'CLEAR' key to exit the Frame Tag Real Time Clock test and return to the System Test Menu.
