

# VER SALES, INC.

## Your Source For Beam Clamps

### Features

(One and Two Ton Models)

- One ton model adjusts to fit 3-inch to 8- inch steel beam.
- Two ton model adjusts to fit 3-inch to 12- inch steel beam.
- Slip proof notches for easy installation.
- Swivel eye.
- Manufactured with all grade 8 hardware.
- Both models are 100% black in color.

### Load Tested

- One-Ton model load tested and certified to ultimate tensile strength of 13,500 lbs.
- Two-Ton model load tested and certified to ultimate tensile strength of 23,900 lbs.
- Both models tested were clamped to a beam at their widest flange capacity.
- Testing results provide a 5:1 safety margin for both models.
